Letter From the Chairman and CEO

Dear Member,

It is with great difficulty that we inform our members that the Picatinny Federal Credit Union posted a net loss of \$5,240,002 in 2011. This development is the result of a "perfect storm" of third party criminal activity, questionable investment actions by other credit unions thereby raising our deposit insurance, and the worst economic downturn since the Great Depression in the 1930s.

As we mentioned in previous reports, it came to our attention in 2009 that our former mortgage servicer, CU National, sold \$13.2 million of our first mortgage portfolio to Federal National Mortgage Association (FNMA) without our knowledge or authority and kept the proceeds. The individual who perpetrated this fraud has plead guilty, admitted that he sold the loans without our knowledge or authority, and is now in prison. Since 2009, we have pursued litigation against FNMA to retrieve our stolen property. During 2011, the Board of Directors determined after much deliberation, to settle its claim against FNMA rather then proceed with a protracted legal battle. At this time we are pursuing recovery of our remaining shortfall by two means: through a claim against our insurance policy (fidelity bond) and through the bankruptcy court against the perpetrator. Although the worst of this terrible fraud is behind us, these recovery efforts will continue through 2012 incurring additional legal and administrative costs.

In addition to the significant loss recorded from the fraud, Picatinny, like all other federally insured natural person credit unions, must maintain one percent of its deposits in the National Credit Union Share Insurance Fund (NCUSIF) to insure our members' deposits. Because a number of corporate credit unions ended up in conservatorship, the National Credit Union Administration levied an additional \$614,000 premium in 2011, almost double the additional premium in 2010. The amount is expected to be considerably less in 2012, but it is an annual charge that will probably continue well into the 2020s.

The national trend of consumers paying down debt over the past few years was also very evident at PFCU. In 2010 we reported that our loans declined \$12.7 million or 10% from 2009. That trend continued in 2011 as loans again decreased by \$10.2 million or 9%. Over the past two years most of these funds have been redeployed into investments that have earned less than 1%. As a result our net interest income declined by \$558,000 in 2011 compared to 2010. In spite of the difficulties we have faced during this period, we ended 2011 with a capital ratio of 7.53% which is classified by the NCUA as a "Well Capitalized" institution.

While the period since the Great Recession began has presented us with many challenges, we believe we are beginning to see some bright spots as we head into the future. The economy seems to be recovering even if progress has been slow. Unemployment is beginning to decline and some sectors of the economy are beginning to pick up although the housing sector, which is important to credit unions, continues to be depressed. During the fourth quarter of 2011, auto loans have started to grow as we have become very aggressive with our car loan rates. At the time of

this writing, we are starting to see increased activity in other loan categories such as mortgages and home equities. This has been very encouraging.

During 2011 we took complete control of our underwriting and servicing of first mortgages. We strongly believe that this will allow us to provide a better level of service and pricing than a third party solution. We will also realize additional sources of non-interest income as a result of any sales and servicing of these loans. To that end, we have teamed up with the Federal Home Loan Bank of New York (FHLBNY) to sell mortgages to them through their Mortgage Partnership Finance® Program (MPF) program. Unlike other mortgage purchasers, the FHLBNY pays additional fees to their partners for managing a portion of the credit risk associated with these loans. With our solid member base, we believe this will provide us with additional income.

Our Relationship Rewards product, which was rolled out early in 2011, has been well-received by our members, and many have taken advantage of the bonus rates and free services that apply to the different tier levels. Relationship Rewards is the foundation we will use in the future to "give back" to our members. To that end, we plan to enhance this product in 2012 with additional rewards.

Our plans to expand further into the Morris County Market continued in 2011. We purchased property and received approval for the construction of a full service branch at 340 East Main Street in Denville. The branch is expected to open in the second quarter of 2012 and will give our members a third location for their financial transactions outside of Picatinny Arsenal.

In addition to expanding our brick and mortar facilities, we will also be offering new electronic service delivery channels in 2012. We are currently working on a new telephone banking system and will be rolling out a new mobile banking product in 2012 giving our members access to their funds via a phone app. Offering new technology and access points to our members is a major part of our strategic plan.

With the turmoil that has been experienced by banks across the country, credit unions are increasing in popularity with consumers and small businesses. Having come through a very difficult period, the Board of Directors, management, and the employees of Picatinny Federal Credit Union look to the future with renewed optimism and continue to be dedicated to providing you with the best in convenient and valuable financial services delivered by friendly expert staff and easy to use technology. It is the loyalty of our members that has brought this credit union through these difficult times, and for that, you have our profound gratitude. It is after all YOUR credit union, and we never forget that.

Sincerely,

Joe Shiposh
